The 13th brain holds seeds, perspectives, paradox, and beauty. Curated by pull, not by verification. Boundary: acknowledges the dark, doesn't live there. The registry credits, organizes and shares what others publish — the tier is a reading of the source, not a claim about us.

T1

Tier 1 — Primary record

The record itself — government records, standards bodies, primary data. Trust score 0.95.

135 sources · 11 domains

Physics

Constants, nuclear data, particle records and physical reference data. 6 sources filed at this tier.

NASA ADS (ASTROPHYSICS DATA SYSTEM)

NASA / Smithsonian NASA Astrophysics Data System. Digital library for astronomy and physics. 15M+ records.

- Link: <https://ui.adsabs.harvard.edu>
